Hydon Dairy Wipes

Hydon Dairy Wipes Product Code:HP002

2 Ply Green Agricultural Rolls	140m x 230mm wide x 56gsm
1 case = 6 Rolls	45 Cases per Pallet
 Price: £18.45 per case 	

Quality

Pre-milking hygiene standards are essential in reducing the risk of the spread of pathogens including mastitis within a dairy herd. Dairy wipes are ideal for use in the milking parlour maintaining pre-milking hygiene. Each dairy wipe is ideal for teat cleaning; removing mud and dirt before milking starts.

Cleanliness

Each Dairy Wipe is ideal for wiping each teat individually avoiding cross-contamination prior to fitting the milking cluster.

Good Wet Strength

Soft and strong even when wet.

Tough

A strong, thick and absorbent wipe which can be used to soak up spills, leaks and wipe down many surfaces within the milking parlour and around the farm.

Convenient

Each roll is 230mm wide and 140m in length perforated allowing each sheet to be conveniently torn from the roll. Each roll has an optional stripping core allowing the roll to be used in a centre feed dispenser if required.

Payment Terms

Credit terms are available upon application.
