QUALITY and ENVIRONMENT

- Excellent for contact with food
- Maintains a clean working environment
- Good resistance to moisture
- More technical information available on request
- All natural raw materials
- Biodegradable
- All relevant certification available on request

Since the end use of the paper is beyond our direct control, we expect that the customer will satisfy themselves that the paper is suitable for that end use. Unless otherwise negotiated, we reserve the right to use raw materials from more than one source whilst still maintaining a commercial match within the terms of this specification.
