BLUE SILICONE COATED GREASEPROOF PAPER

Grease Resistance	Release Qualities	Heat Resistance	Approved for Food Contact	Product Identification	Food Wrapping	Recyclable
😊	😊	😊	😊	😊	😊	😊

Description: Blue, double-sided, Silicone coated greaseproof Paper with excellent heat stability. Coloured baking paper, typically blue is becoming more popular as bakers improve food safety and hygiene.

Typical End Use: An environmentally friendly reusable baking paper, also suitable for cooking and frying. The added colour assists complete release from the product and is used for product identification.

Benefits:

- Produced from natural raw materials
- Heat resistant
- Excellent non-stick qualities
- Suitable for oven use
- Good for identification
- Reduces the need for washing up
- Reusable
- Reduces the need for oil or fat
- Clean and hygienic

TECHNICAL DATA

Property	Unit	Value	Tolerance	Test Method	Image
Grammage	gsm	40	+/- 5%	STM88	
Thickness	μ	44	+/- 10%	STM44	
Burst strength	kPA	100	Min 80	STM41	
Cobb value (60sec:water)	gsm	10-15		STM37	
Tear strength (Elmendorf)	mN	250/280		STM42	
Tensile Strength	N/15mm	50		STM43	

QUALITY and ENVIRONMENT

- Ability to bake at 210°C maximum for 20 minutes
- Paper is delivered in sheets or reels
- Fully recyclable and biodegradable
- Enables complete release
- Suitable for primary food packaging
- Paper can be packaged in polywrap, brown Kraft or cartons
- More technical information available on request

Since the end use of the paper is beyond our direct control, we expect that the customer will satisfy themselves that the paper is suitable for that end use. Unless otherwise negotiated, we reserve the right to use raw materials from more than one source whilst still maintaining a commercial match within the terms of this specification.
